

FRENCH OAK

Product Information

SOLID HARDWOOD FLOORING

Defined by origin. Crafted to endure.

For generations, Hurford's has been synonymous with crafting Australia's finest hardwood flooring. That same commitment to material integrity and craftsmanship extends to our French Oak range sourced from the heart of France and produced to Hurford's exacting standards.

Sourced from the Auvergne Rhône region and selected through Hurford's dedicated operations in France, only the highest quality oak is chosen. Here, centuries-old forestry practices, soil composition and climate give the timber its distinctive character. This terroir results in a tighter grain structure, deeper undertones and exceptional consistency, qualities that have long defined French Oak as the world's benchmark for premium oak flooring.

HURFORD'S SOLID FRENCH OAK

PREMIUM TIMBER SINCE 1932

INHERENT ELEGANCE

Sourced in France. Crafted to Hurford's Standards.

Sustainably sourced from boutique French sawmills and re-dried to Australian standards, every detail reflects quality you can see and feel.

Supplied unfinished, Hurford's French Oak allows for site sanding and finishing—giving designers and owners the freedom to achieve a clear natural finish or a custom stain, tailored to the space.

Rich in heritage yet designed for modern Australian living, French Oak brings warmth, depth and quiet confidence to residential and selected commercial interiors.

CHARACTER MEETS CRAFT

Graded to Honour the Material

French Oak has an inherent elegance that transcends trends. At Hurford's, each plank is thoughtfully graded to honour the natural variation of this exceptional material—embracing subtle tonal shifts, expressive grain and authentic texture rather than refining them away.

The result is a floor that feels grounded, refined and unmistakably real. Durable and long-wearing, French Oak is suited to the demands of everyday life while offering long-term value as a premium material that elevates the home.

Site Sand & Finish

Supplied unfinished to allow complete control over colour, sheen and finish. Accepts stains exceptionally well.

	SOLID OVERLAY	SOLID FLOORING
Finished Size:	133mm × 11mm (5mm above tongue)	130mm × 21mm (8mm above tongue)
Lengths:	Random 400mm – 3 000mm	Random 600mm – 3 000mm
